Loans

Loans and finance lease liabilities include loans, financial leases, excluding loans in the form of bonds or preference shares with terms that the issuer is required to repurchase at a certain point in the future.

The Company monitors loan amounts and financial liabilities in details by each type and classifies them into short-term and long-term according to repayment term.

Expenses directly related to the loan are recognized to financial expenses, except for expenses incurred from a separate loan for investment, construction or production in progress, which are capitalized according to Accounting Standard "Borrowing costs".

Recognition and capitalization of Borrowing costs

All other borrowing costs are recognised in the Income statement when incurring, except for the borrowing cost capitalized under Vietnamese Accounting Standards "Borrowing cost".

Accrued expenses

Accrued expenses are those already recorded in operating expenses in the period/year but not actually paid to ensure that when these expenses actually occur, they will not have a significant influence on operating expenses based on matching principle between income and expenses.

The Company recognizes Accrued expenses as follows: Advance provision for real estate project cost, advance provision for loan interest expense, advance provision for construction cost according to volume acceptance minutes.

Unrealized revenues

Unrealized revenues includes: The difference between the selling price and the leaseback price of the finance leased asset is allocated by the straight-line method based on the lease term of the contract.

Owners' equity

Capital is recorded according to the actual amounts invested by owners.

Treasury shares are shares issued by the Company and repurchased by the Company. Treasury shares are recorded at their actual value and presented on the Balance Sheet as a reduction in equity.

Profit after corporate income tax is distributed to shareholders after setting up funds in accordance with the Company's Charter as well as the provisions of law and approved by the General Meeting of Shareholders.

Dividends are recognized as liabilities after approval by the General Meeting of Shareholders.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**Revenue and other income**

The company's revenue includes: sales revenue, service revenue, and construction revenue.

Revenue from sale of goods

Revenue from sale of goods shall be recognized when it satisfies all the five (5) conditions below:

- The Company has transferred to the buyer the significant risks and reward of ownership of the goods;
- The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Company;

Costs related to transactions can be determined

Revenue from services

Revenue from services is recognized when the outcome of that transaction can be reliably determined. Where a transaction involving the rendering of services is attributable to several periods, revenue is recognized in the year by reference to the percentage of completion of the transaction at the balance sheet date of that period. The outcome of a transaction can be measured reliably when all four (4) following conditions are satisfied

- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Company;
- Identify the completed work as at the balance sheet date; and
- Determine the costs incurred for the transaction as well as the cost to complete the transaction to provide that service.

Revenue of construction

Revenues of construction are reliably recognized in the following cases:

- For construction contracts stipulating that the contractor is paid according to the planned schedule, the revenue and expenses related to the contract are recognized in equivalent proportion to the completed work determined by the Company as at the balance sheet date.
- For construction contracts stipulating that the contractor is paid according to the value of the volume performed, the revenue and expenses related to the contract are recognized in equivalent proportion to the completed work confirmed by the customer and reflected on the issued invoice.

Increases and decreases in construction volume, compensation and other revenues are recognized as revenue only when agreed with the customer.

Revenues of construction are not recognized in the following cases:

- Revenue is recognized in equivalent proportion to contract costs which is probable to be paid.
- The contract costs are recognized to expenses only when they actually incur.

The difference between the cumulative total revenue of the construction contract as recorded and the cumulative amount recorded on invoices according to the planned progress of the contract is recognized as a receivable or payable according to the planned progress of the construction contracts.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Quarter II/2026

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)***Revenue from the sale of real estate***

The Company's revenue from sale of real estate is recognized when it satisfies all following conditions:

- The real estate is totally completed and handed over to the buyer. The Company has transferred the significant risks and rewards of ownership of the real estate to the buyer.
- The Company does not retain managerial right over the real estate as the owners or control involvement with the real estate.
- The amount of revenue can be measured reliably.
- It is probable that the economic benefits associated with the transaction will flow to the Company.
- The costs incurred in respect of the transaction can be measured reliably.

Revenue from interest income, dividends and profits received and other income:

The revenue is recognized when the Company can obtain economic benefits from the above activities and when it is reliably measured.

Cost of goods sold

Cost of goods sold or services rendered including the cost of services, investment property, production cost of construction products sold during year is recorded corresponding to revenue of the period. For cost which is over the normal level of inventories is recorded directly into the cost of goods sold.

Financial expenses

Borrowing costs: Recorded monthly based on loan amount, interest rate and actual number of days borrowed.

Current corporate income tax expense, Deferred corporate income tax expense

Corporate income tax expense (or corporate income tax income): This is the sum of current income tax expense and deferred income tax expense (or current income tax income and deferred income tax income) when determining profit or loss for a period.

Current income tax expenses: are corporate income tax payable calculated on taxable profit during the year and current corporate income tax rate. Current income tax is calculated on taxable income and applicable tax rate during the tax period. Difference between taxable income and accounting profit is from adjustment of differences between accounting profit and taxable income in accordance with current tax policies.

Deferred corporate income tax expense: This is the amount of corporate income tax that will be payable in the future arising from: recognizing deferred income tax payable in the year; reversing deferred income tax assets recognized in previous years; not recognizing deferred income tax assets or deferred income tax payable arising from transactions that are directly recognized in equity.

The Company has an obligation to pay corporate income tax at the rate of 20% on taxable profits.

The determination of the Company's income tax is based on current tax regulations. However, these regulations change from time to time and the final determination of corporate income tax depends on the examination results of the competent tax authorities.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**Basic earnings per share**

Basic earnings per shares are calculated by dividing net profit (loss) after tax for the year attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year. Diluted earnings per share is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of outstanding ordinary shares due to the effect of all the dilutive potential ordinary shares including convertible bonds and stock options.

Related parties

A party is considered a related party of the Company in case that party is able to control the Company or to cause material effects on the financial decisions as well as the operations of the Company. A party is also considered a related party of the Corporation in case that party is under the same control or is subject to the same material effects.

When considering the relationship of related parties, the nature of relationship is focused more than its legal form.
